

Geothermal New Zealand Industry Update

Mike Allen

New Zealand Geothermal Workshop

Taupo

20th November 2015

Geothermal New Zealand Inc.

- ▶ There is value in soft networking, including sharing market intelligence, and assisting where appropriate with market research and other development/promotional work
- ▶ Geothermal New Zealand may identify commercial project opportunities that we have not previously been aware of or that may be enhanced by a collaborative approach
- ▶ Focus on large scale opportunities where collaboration will generally be necessary to achieve the scale and breadth of response required

Focus of approach

- ▶ Collaboration across the development chain
- ▶ Collective sharing of knowledge
- ▶ Collective sharing of intelligence
- ▶ Common presentation to markets
- ▶ Initial NZTE funding support - ongoing cooperation
- ▶ Government / industry interaction

Key activities

- ▶ Updated pipeline on project opportunities internationally
- ▶ Continued focus on construction potential led by Hawkins et al
- ▶ Industry representation:
 - ▶ World Geothermal Congress - Melbourne May 15
 - ▶ Indonesian Geothermal Congress and Exhibition - August 15
 - ▶ Geothermal Resource Council (GRC) - Reno - September 15
 - ▶ Meeting with Oil & Gas Industry - New Plymouth - October 15
- ▶ Active engagement with MOE, MFAT, NZTE, G-2-G
 - ▶ Projects in Indonesia, Caribbean and Africa
 - ▶ Discussions re NZAID geothermal support globally
 - ▶ Potential to link MFAT and industry opportunities
 - ▶ Opportunities to build New Zealand led projects
